

SKT H10

Modular Tubular Bag filling system

Filling material: Chemical

Product data 1 Component

Diameter: 18-90 mm
Volume: 50-3000ml

Product data 2 Component

Diameter: 46 - 80mm
Volume: 160-1000ml
Ratio: 10:1 - 3-1

Dosing:

hydraulic

double dosing

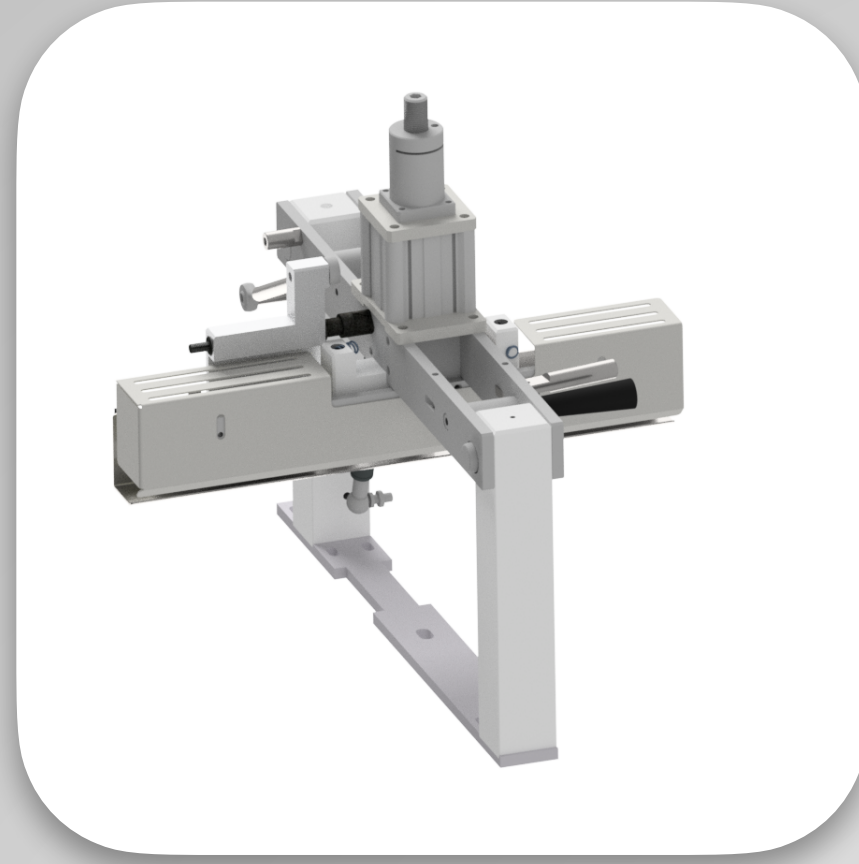

servo

external dosing

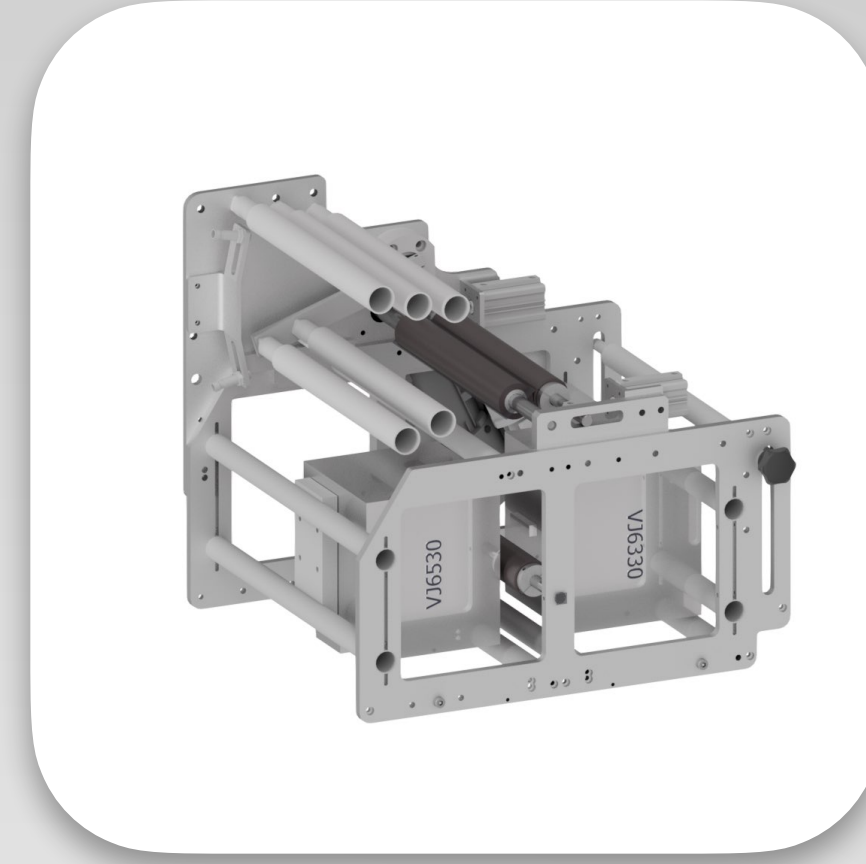

Foil:

intermittent seal

continuous seal

degenerated drive

double foil coil

Extra large coil

Clipping:

wire clip

Wire drum feeding

Flat clip

Marking:

Thermotransfer printer

Labeller

Ink jet printer

Inspection:

Checkweigher

Clip pressure

puncture tester

TECHNICAL DATA:

Packaging rate: up to 40 / min
PLC: Siemens
Control Panel : Siemens 10" Unified
Pneumatic: Festo VTUX
Motors: Lenze

Weight: ca. 1800 kg
Power: 6 kW
Compressed Air: 6 bar
Air consumption: 3-4 NL
